SUMMARY

Computer Science and Engineering graduate with a 9.42 CGPA and a co-authored IEEE paper on melanoma detection. Built a skin cancer classifier in PyTorch and an automated VM backup system on Proxmox and AWS S3. Works in Python, Java, SQL and web development. Looking for a software engineering role with real projects to learn from.

EDUCATION

B.Tech, Computer Science and Engineering | FISAT, Angamaly | 2022 - 2026 | **CGPA 9.42**
Higher Secondary (State HSE) | GHSS Anchal West | 2021 | **98.7%**
Secondary (SSLC) | GHSS Anchal West | 2019 | **90.0%**

TECHNICAL SKILLS

- **Languages:** Python, Java, C
- **Web and Database:** HTML, CSS, JavaScript, Spring Boot, SQL
- **AI / ML:** PyTorch, CNN models, Streamlit, Prompt Engineering
- **Cloud and Tools:** AWS (S3), Proxmox VE, Rsync, Git

PROJECTS

Melanoma (Skin Cancer) Detection
- Trained and compared ResNet50, EfficientNet-B3 and VGG16 on the HAM10000 dataset. A modified ResNet50 performed best with **90% accuracy and 0.977 weighted AUC**.
- Built a Streamlit web app with image upload, real-time prediction and automated report generation.

CloudVault: Automated VM Backup to AWS S3 (team of 4, mini project, FISAT, 2025)
- Built a system that schedules snapshot backups of Proxmox virtual machines, syncs them with Rsync and uploads them to Amazon S3, tracking each backup status in a SQL database.
- Set up the Proxmox environment and test VMs, wrote part of the Java backup service, and built the login module of the Spring Boot web dashboard.

Personal Portfolio Website
- Built a portfolio site to show my skills and projects, with a contact form and social media links.

PUBLICATION

"Transfer Learning-Driven ResNet50-Based Deep Convolutional Framework for Automated Melanoma Detection in Dermoscopic Images," published by IEEE, 2026. Available on IEEE Xplore (document 11590672).

CERTIFICATIONS

- AWS Cloud Foundations
- HackerRank Skills: SQL and Python
- NPTEL: Joy of Computing using Python
- One Million Prompters, Dubai Centre for AI (Government of Dubai), 2026
- Infosys Springboard: Practical HTML and CSS

INTERNSHIPS

Artificial Intelligence: Mastering Prompt Engineering | IBM SkillsBuild
- Learned to write clear, specific prompts that give accurate results.

Machine Learning, AI and Data Science | KELTRON
- Learned Python, supervised and unsupervised machine learning, and core AI and data science concepts.

ACHIEVEMENTS AND VOLUNTEERING

- PTA Perseverance Award for consistent effort and dedication (2022-2023 and 2024-2025).
- Volunteer, ACM Renascence '23 | Workshop Volunteer, ACM EDGE+ 3.0

ADDITIONAL INFORMATION

- **Languages:** English (Fluent), Malayalam (Native), Hindi (Spoken), Tamil (Spoken)
- **Soft Skills:** Perseverance, Analytical Thinking, Self-Directed Learning, Collaborative Problem Solving
- **Interests:** Artificial Intelligence, Community Service, Playing Sports, Exploring New Technologies
